# Hello attendants!!!!

Thank you for attending in **Google AutoML workshop**. Before we start our ML journey you need to perform some activities:

1. You need a Google account. Follow this instruction if you haven't:
   https://support.google.com/accounts/answer/27441?hl=en
2. The workshop will consume GCP resources (all activities are covered by free tier). You need own billing account. Follow this instruction if you haven't:
   https://cloud.google.com/billing/docs/how-to/manage-billing-account
3. You need to create a GCP project. Follow this instruction if you haven't:
   https://cloud.google.com/resource-manager/docs/creating-managing-projects

Feel free to contact me if you have any problems with the tasks described above.

**May the ML force be with you!!!!**

**Emil Dabrowski**
